

Pokémon Indigo - QoL Features and Game Modes

Information & Exploration

- **Advanced Pokédex:** Displays evolution methods, level-up learnsets, abilities, and modified base stats in the "Data" page.
- **Poké Radar:** Shows which wild Pokémon inhabit the current route or zone.
- **HM Replacements:** HM moves are replaced by Key Items to free up party slots.
 - Pewter Pick (Rock Smash)
 - Chop Down Tool (Cut)
 - Light Up Module (Flash)
 - Sea Skimmer (Surf)
 - Climbing Gear (Rock Climb)
- **Poké Rider:** Fast travel access from the menu.
- **Game Speed Toggle:** Press the ALT key to speed up the game.

Training & Progression

- **Starter Selection:** You can choose which region your starter Pokémon is from at the start of the game.
- **Infinite Rare Candies:** Interact with the cups inside any Pokémon Center to receive unlimited Rare Candies. There will be no text indication, but you will receive 100 Rare Candies per interaction.
- **Level Caps:** To balance progression, the game enforces level caps tied to the next Gym Leader. You can check your current cap in the menu.
- **Streamlined Evolutions Methods:** Many Pokémon have had their evolution requirements changed to level-ups or by using evolutionary items.
- **Poké Vial:** A portable healing item for your party. You can increase its charges by finding upgrade items throughout your adventure.
- **The Incubator:** A Key Item you can get near the Day Care on Route 5. It stores Pokémon Eggs, allowing them to hatch without taking up an active slot in your party.

Mechanics & Modes

- **Base Version Selection:** Choose the core game experience at the start of your journey.
 - **Classic Mode:** Limits the Pokédex to Kanto and select Johto Pokémon, along with their respective evolutions.
 - **Complete Mode:** Includes all Pokémon from every generation.
 - **Radical Mode:** Includes all Pokémon but features increased difficulty, forces Set battle style, and bans healing items during battle.
- **PC Customization Modes:** The following challenge modes and modifiers can be activated and customized from the PC in the player's bedroom.
 - **Nuzlocke Mode**
 - **Randomizer Mode**
 - **Monotype Mode**
 - **Doubles/VGC Mode**
 - **Inverse Mode**
 - **No Grind Mode:** EVs and IVs are completely ignored and treated as 0 for all Pokémon.
